PROFILE SUMMARY

Computer Scientist with over 2 years of experience in full-stack web development, specializing in PHP, React.js and Python. Adept at designing scalable web solutions and providing IT support to enhance operational efficiency in corporate environments.

PROFESSIONAL EXPERIENCE

NATIONAL PETROLEUM AUTHORITY (NPA) *November 2023 – October 2024*
Assistant IM and HSE / PPMS Officer / IT Personnel

- Supported field testing and data management across over 350 fuel stations, improving data accuracy and reporting consistency.
- Assisted in permit processing (No Objection, Construction Permit (CP), Authorization Permit (AP), Test Run) for new service stations in compliance with NPA regulations.
- Provided technical support and troubleshooting for staff, resolving IT issues promptly to maintain workflow efficiently.

GOOGLE DEVELOPERS STUDENTS CLUB (GDSC) *August 2022–August 2023*
Core Team Member

- Facilitated Web Development and Mobile Application workshops, empowering over 30 attendees to build their own projects.
- Designed promotional flyers for weekly sessions.

THE GHANA COCOA BOARD (COCOBOD) *May 2022–June 2022*
End User Support Technician

- Diagnosed and resolved diverse user-related IT issues, providing end-to-end support from initial troubleshooting to final resolution. This role required direct user interaction to understand technical problems and implement effective solutions, ensuring optimal system functionality and user satisfaction.
